

III. PROFESSIONAL RESEARCH & MEETINGS - 31 CFR § 515.564

General license for certain professional research and attendance of certain meetings or conferences:

Section 515.564(a) sets forth a general license authorizing certain travel-related and additional transactions that are directly incident to full-time professionals conducting professional research in their professional areas in Cuba or attending meetings or conferences in Cuba. Research requires a full work schedule of noncommercial, academic research that has a substantial likelihood of public dissemination and is in the traveler's professional area. Meetings or conferences must be organized by an international professional organization, institution, or association headquartered outside the United States that regularly sponsors meetings or conferences in other countries. (An organization headquartered in the United States cannot organize or hold a meeting or conference in Cuba without a specific license issued by OFAC.) In addition, the meetings or conferences may not be for the purpose of promoting tourism in Cuba or other commercial activities involving Cuba that are not licensable under current U.S. policy and may not be intended primarily for the purpose of fostering production of any biotechnological products. Please review § 515.564(a) of the Regulations, which is included at the end of this category in the Application description and § 515.560(c) of the Regulations in Appendix 1.

Each person engaging in travel-related transactions under a general license must be able to document how he or she qualifies under the general license. For example, a resume or curriculum vitae generally demonstrates an individual's full-time professional area. A written work plan done prior to travel might also support an individual's intention of engaging in a full-time schedule of research. No prior written approval from OFAC is required for travel under a general license. An OFAC-authorized travel service provider ("TSP") is not responsible for making the determination that a traveler qualifies under the general license, although the TSP may ask the person to fill out an affidavit affirming that he or she qualifies before the TSP makes the travel arrangements.

Examples:

Licensed

Example 1: An international professional association headquartered in England organizes an annual training conference. This year the conference will be held in Cuba. The prior venues for this conference have included locations in Spain, China, and Mexico. The general license is applicable to individuals who are full-time professionals.

Example 2: A university professor with a specialty in plant disease wishes to conduct research in Cuba because his background research indicates that Cuba may have a plant strain that is resistant to disease. He is generally licensed to engage in travel-related transactions to conduct research provided the research is non-commercial in nature and there is substantial likelihood the research will be publicly disseminated.

Not licensed

Example 1: A company located in Brazil organizes professional conferences to be held in various countries and has organized a conference to be held in Cuba. Although the conference is endorsed by many international professional organizations and associations, the general license for conference attendance does not apply because the organizer of the conference is not a professional organization, institution, or association.

Example 2: A Cuban organization has organized an international conference that is endorsed by several professional organizations in third countries. This conference does not qualify under the general license because it is not organized by an international professional organization, institution, or association that holds conferences in various international locations.

Application criteria for specific licenses for other professional research, meetings, or conferences - 31 CFR § 515.564(b):

If you wish to conduct professional research or attend professional meetings and conferences in Cuba that do not qualify for the general license in § 515.564(a), you must apply for a specific license pursuant to § 515.564(b) in the form of a letter to OFAC providing the following information:

1. Identify yourself. Furnish your name, address, and daytime phone number.
2. Identify your organization. If you are applying on behalf of an organization, tell us what type of organization it is. If available, provide a copy of a brochure or other literature describing typical activities it undertakes.
3. Identify the category of travel. State your request for a specific license under § 515.564(b) of the Regulations to engage in transactions directly incident to professional research or attendance at a professional meeting or conference or for the organization of a professional meeting or conference in Cuba that does not qualify for the general license under § 515.564(a).

4. Describe duration of the proposed travel. Set forth the proposed dates and duration of trip. If multiple trips are proposed, indicate dates and duration of each trip and justification as to why multiple trips are necessary. Multiple trips to Cuba over an extended period of time may be requested and authorized for applicants demonstrating a significant record of research.

5. Describe the proposed research or meeting/conference.

a) Research: Provide a detailed description of the research you propose to conduct in Cuba and discuss how it is specific to Cuba and cannot take place elsewhere. A detailed description of the research should include (1) a statement of the thesis, (2) a description of the research plan or methodology, and (3) a description of the quantity and the nature of the resources you will be using, e.g., archives, interviews, etc.

b) Meeting/Conference: Describe the meeting or conference and the subject matter involved. Name the entity organizing the meeting or conference, if any, and indicate where it is headquartered. Furnish a copy of the conference program and/or agenda. Specific licenses will not be issued pursuant to § 515.564(b) simply because a professional does not qualify under the general license in § 515.564(a). Clearly articulate why your attendance at the particular meeting/conference is necessary and explain whether a similar conference elsewhere is not readily available.

6. Document your qualifications. Provide evidence of your professional qualifications, including, at a minimum, a copy of your resume or curriculum vitae. Discuss how your professional background or area of expertise is related to the subject matter you wish to research or the meeting or conference you wish to attend.

7. Extensions & renewals. When applying for an extension or renewal of a license, be sure to reference the license number in your application and also include the following:

(a) an explanation why an extension or renewal is necessary;

(b) a detailed report setting forth a record of all activities undertaken pursuant to the original license or, if the original license was renewed, the most recent renewal; and

(c) a complete copy of the license and all license amendments and renewals.

8. Sign your letter. Your signature is your certification that the statements in your application are true and accurate.

Note: For questions related to the licensing requirements for the exportation of goods from the United States to Cuba, please contact the U.S. Department of Commerce, Bureau of Industry and Security at (202) 482-4811.

Examples: (Examples are set forth in § 515.564 of the Regulations, which is included at the end of this category in these Application Guidelines. Additional examples are provided below.)

Licensable

Example 1: An estate attorney is handling a probate case in the United States in which a Cuban national is named as an heir. The attorney needs to gather information relevant to a conclusive determination regarding the Cuban national's entitlement that can only be ascertained by conducting research in Cuba. Licensing policy in such instances favors facilitating the resolution of legal proceedings.

Example 2: A professional writer or film maker wishes to travel to Cuba in order to engage in research necessary to produce a documentary book or film that will be published or otherwise distributed. Note: The making of a film absent the conduct of specific research would not qualify for a license. The making of a documentary film is a legitimate basis for issuing a license only if it is a vehicle for the presentation of the research conducted.

Example 3: An expert in orthopedic medicine seeks to travel to Cuba to attend an orthopedic conference organized solely by a Cuban entity and not by any international organization. The conference concludes with a two-day tour of medical clinics where certain procedures used only in Cuba will be observed first-hand.

Not licensable

Example 1: A railroad hobbyist desires to research aging locomotives in Cuba. The Regulations provide that licenses are not granted for travel in pursuit of a hobby or research for personal satisfaction only.

Example 2: A group of architects wants to arrange a sight-seeing trip to view the architecture of Old Havana. This does not constitute research and would not qualify for a license since it constitutes travel for personal satisfaction only.

Example 3: Oil company engineers want to research Cuba's offshore oil reserves. Travel transactions related to research of a commercial nature with commercial ramifications designed to position a company's entry into the Cuban market once the embargo is lifted is

not normally permitted pursuant to a specific license issued under this section.

Example 4: A U.S. law firm seeks to sponsor a conference in Havana with a focus on Cuban law and lectures by Cuban attorneys. Absent any direct nexus between the law practices of participating attorneys and the need for exposure to the Cuban legal system, this activity is not eligible for authorization by specific license.

Text of Regulatory Provision for § 515.564:

§ 515.564 Professional research and professional meetings in Cuba.

(a) *General license.* (1) The travel-related transactions set forth in § 515.560(c) and such additional transactions that are directly incident to professional research by full-time professionals who travel to Cuba to conduct professional research in their professional areas are authorized, provided that:

- (i) The research is of a noncommercial, academic nature;**
- (ii) The research comprises a full work schedule in Cuba;**
- (iii) The research has a substantial likelihood of public dissemination; and**
- (iv) The research does not fall within the categories of activities described in paragraph (c), (d), or (e) of this section.**

Note to paragraph (a)(1): This general license does not authorize as professional research any travel-related transactions incident to attendance at professional meetings or conferences. Such transactions must either qualify under the general license set forth in paragraph (a)(2) of this section or be the subject of a request for a specific license under paragraph (b) of this section.

(2) The travel-related transactions set forth in § 515.560(c) and such additional transactions as are directly incident to travel to Cuba by full-time professionals to attend professional meetings or conferences in Cuba organized by an international professional organization, institution, or association that regularly sponsors meetings or conferences in other countries are authorized, provided that:

- (i) The international professional organization, institution, or association is not headquartered in the United States unless that organization, institution, or association has been specifically licensed to sponsor the meeting in Cuba;**
- (ii) The purpose of the meeting or conference is not the promotion of tourism in Cuba or other commercial activities involving Cuba that are inconsistent with this part; and**
- (iii) The meeting or conference is not intended primarily for the purpose of fostering production of any biotechnological products.**

Note to paragraph (a): See §§ 501.601 and 501.602 of this chapter for applicable recordkeeping and reporting requirements. Exportation of equipment and other items, including the transfer of technology or software to foreign persons ("deemed exportation") and items not eligible for Department of Commerce GFT or BAG License Exceptions, 15 CFR 740.12 and 740.14, may require separate authorization by the Department of Commerce.

(b) *Specific licensing.* Specific licenses may be issued on a case-by-case basis authorizing the travel-related transactions set forth in § 515.560(c) and other transactions that are directly incident to professional research and professional meetings that do not qualify for the general license in paragraph (a) of this section. Specific licenses may be issued pursuant to this section authorizing transactions for multiple trips to Cuba over an extended period of time by applicants demonstrating a significant record of research. Specific licenses will not be issued for travel-related transactions for purposes of attendance at meetings or conferences in Cuba organized by the Cuban government where such meetings or conferences could be intended primarily for the purpose of fostering the production of any biotechnological products.

(c) Categories of activities that do not qualify for the general license in paragraph (a) of this section and for which the specific licenses described in paragraph (b) of this section will not be issued include recreational travel; tourist travel; travel in pursuit of a hobby; research for personal satisfaction only; and any travel for an authorized professional research purpose if the schedule of activities includes free time, travel, or recreation in excess of that consistent with a full work schedule of professional research or attendance at professional meetings or conferences.

(d) An entire group does not qualify for the general license in paragraph (a) of this section and will not be issued a specific license under paragraph (b) of this section merely because some members of the group could qualify individually for such licenses.

Example 1 to paragraph (d): A musicologist travels to Cuba to do research on Cuban music pursuant to the general license for professional researchers set forth in paragraph (a) of this section. Others who are simply interested in music but who do not research music as part of their careers may not engage in travel-related transactions with the musicologist in reliance on this general license. For example, an art historian who plays in the same band with the musicologist would not qualify as a professional researcher of Cuban music for purposes of this general license.

Example 2 to paragraph (d): A specific license issued pursuant to paragraph (b) of this section authorizing travel-related transactions by a fish biologist who travels to Cuba to engage in professional research does not authorize transactions by other persons who might travel with the fish biologist but whose principal purpose in travel is to engage in recreational or trophy fishing. The fact that such persons may engage in certain activities with or under the direction of the professional fish biologist, such as measuring or recording facts about their catch, does not bring these individuals' activities within the scope of professional research and similar activities.

(e) A person will not qualify as engaging in professional research merely because that person is a professional who plans to travel to Cuba.

Example 1 to paragraph (e): A professor of history interested in traveling to Cuba for the principal purpose of learning or practicing Spanish or attending general purpose lectures devoted to Cuban culture and contemporary life does not qualify for the general license in paragraph (a) of this section or for a specific license issued pursuant to paragraph (b) of this section.

Example 2 to paragraph (e): A professional photographer who wishes to take photographs in Cuba that will become the basis for creating post cards, paintings, and other secondary products or that merely document the photographer's travel does not qualify for the general license in paragraph (a) of this section or for a specific license issued pursuant to paragraph (b) of this section.
